Curriculum Vitae

Research Interests

Plant ecophysiology; heat and drought stress physiology; non-stomatal water loss; bark water vapor conductance; hydraulic limits of woody plants; dendrochronology; machine learning.

Education

- | | |
|----------------------|---|
| May 2022 – Present | Ph.D. Candidate, Louisiana State University
Baton Rouge, Louisiana, United States
Dissertation focus: When Bark Breaths: Bark water vapor conductance -
<i>Environmental sensitivity, underlying mechanisms, interspecific and within-tree variations</i>
Advisor: Dr. Brett Wolfe
Receiver of Gilbert Research Assistantship
GPA: 4.038 |
| Aug 2019 – May 2021 | M.F., University of New Brunswick
Fredericton, New Brunswick, Canada
Thesis Topic: <i>Sudden Fir Mortality in New Brunswick, Canada: History and Dendrochronological Analysis</i> |
| Aug 2018 – July 2019 | B.S., University of New Brunswick, Forestry (visiting student)
Fredericton, New Brunswick, Canada
Honors Thesis Topic: History of Sudden Fir Mortality in balsam fir in Canada |
| Aug 2015 – July 2019 | B.A.G., Nanjing Forestry University, Forestry
Nanjing, Jiangsu, China |

Publications

- Zhou, Y.,** Rosseau, G., Dao, V., Wolfe, B. 2024. Bark water vapor conductance varies among temperate forest tree species and is affected by flooding and stem bending. *Tree Physiology*
- Zhou, Y.,** Chen, X., Yang, Q., Liu, X., Wu, J., and Sun, H. 2018. 生物炭控制高施氮竹林土壤氨挥发效果研究 [Ammonia volatilization and mechanisms of soil fertilizer in high carbon nitrogen bamboo forest]. *Journal of Jiangsu Forestry Science and Technology* **45**(1): 40–43. Translated by Y. Zhou.

Presentations and Guest Lectures

- Zhou, Y.** Guest Lecture: An introduction to dendrochronology: The dating and study of annual growth rings in trees. RNR 3105, Louisiana State University, 04 Dec 2025. [invited]
- Zhou, Y.** Guest Lecture: An introduction to dendrochronology. RNR 3105, Louisiana State University, 01 May 2025. [invited]
- Zhou, Y.,** Rosseau, G., Wolfe, B. Bark water vapor conductance varies among temperate forest tree species and is affected by flooding and stem bending. 2023 LSU/Southern Ag Centers Joint Annual Conference, 14 Dec 2023. [poster presented]

Zhou, Y., Rosseau, G., Wolfe, B. Bark water vapor conductance varies among temperate forest tree species and is affected by flooding and stem bending. 2023 Annual Meeting & Research Symposium of the Louisiana Association of Professional Biologists, 5 Oct 2023.

Zhou, Y., Rosseau, G., Wolfe, B. Bark water vapor conductance varies among temperate forest tree species and is affected by flooding and stem bending. LAWater 2023: 14th Annual Louisiana Water Conference, 3 Aug 2023.

Zhou, Y., Broom, J., Costanza, K.K.L. Sudden Fir Mortality in New Brunswick, Canada: History and dendrochronological analysis. American Phytopathological Society (APS) Plant Health 2020 Annual Conference, Online, 6 Aug 2020. [poster presented]

Zhou, Y. History of Sudden Fir Mortality in Balsam Fir in Canada. Honors Student Research Symposium, Fredericton, NB, 12 Apr 2019.

Awards and Honors

2025	Clark M. Hoffpauer Memorial Fund Scholarship , Louisiana State University
2024	Barbara S. Edisen Memorial Graduate Scholarship , Louisiana State University
2018 – 2020	International Differential Award , University of New Brunswick
2019	Edwin Jacob Special University Scholarship , University of New Brunswick
2018 – 2019	Dean's List for Academic Excellence , University of New Brunswick
2015 – 2019	Excellent Student Award Scholarship , Nanjing Forestry University

Professional Experience and Organization

2023 – Present	Member of Xi Sigma Pi National Forestry Honor Society
2019 – 2021	Graduate Research Assistant , Forest Health Lab, University of New Brunswick - Field and laboratory analysis of tree mortality and growth responses - Dendrochronological core preparation, cross-dating, and analysis (>300 cores) - Quantification of tree responses to flooding and climate extremes

Leadership

Aug 2025 – Present	Vice President , Table Tennis Club, Louisiana State University
--------------------	---

Technical Skills

- R and RStudio
- Python
- LI-COR gas exchange and custom chamber measurements
- Dendrochronology
- Independent field sampling under physically demanding conditions

Languages

- Fluent in English, both written and verbal. Native in Mandarin.
